

LIPS, TEETH, AND CHIN

The lips are like F1-6 above, and the teeth are like P1-8. The teeth are like that because he is only showing a few teeth, but his teeth are a little smaller. Also, since the top lip is thinner than P2-8, the lips and teeth appear to be a bit up closer to the bottom of the nose, like F1-6.

The chin is like F1-6 at right. The big difference is this man is older, like early 50's, so he has a bit of a wrinkle on each side of the chin that run up to along side the outer edge of the mouth.
