The Moody Mansion was built between 1893 and 1895 and features rare hand-carved wood details, stained glass windows, and coffered ceilings. 10:00am -12:00pm – Galveston Tree Sculpture Tour – Limit 40 – \$20.00

On September 13th, 2008, Hurricane Ike covered most of the Island in a tidal surge. The damaging combination of powerful wind and waves immediately uprooted many trees, but ultimately the salty storm waters led to the demise of the thousands of others. Ike forced Galveston to say a sad goodbye to so much of its beautiful tree canopy. Months later sculpture artists have

breathed second life into something Mother Nature attempted to destroy. Whimsical sculptures have replaced the majestic oaks that once lined many neighborhood streets and shaded homes. Tucked into gardens and nestled in side yards the sculptures are there for the public to enjoy. **(Drink and refreshment stop at Mosquito Café where TAEA President Cheryl Evan’s artwork is currently on exhibit.)**
