On March 23, 2026, a link will **appear** on the left side menu called **State Scholarship Workshops**.

(It will not appear before this date and time.)

You will click on the State Scholarship Workshops link on your HS VASE Teacher Links menu. Then, you will select the student you wish to register for a chance at getting a placement in one of the scholarship workshops.

****Please note:****

The scholarship workshop spaces are pre-assigned based upon a limited number of entries being randomly selected on April 4, 2026 by a computer program. Every student qualifier has the same equal chance at obtaining a slot in a scholarship workshop. If a student should be awarded more than 1 placement, the teachers will be notified and the student will be asked to select their preferred scholarship workshop. The open slot for the non-chosen scholarship workshop will go to the next student on the waiting list.

If your student was awarded a slot and no longer wishes to participate in the scholarship workshop randomly assigned to them, the teacher/sponsor may change his/her selection to different workshop(s). However, once the selection is changed, it will **NOT** be possible to reassign the entry back to the original student and the placement is **NON-TRANSFERRABLE** to another student.

Therefore, the teacher/sponsor should ensure the State VASE student qualifier fully understands that **any changes to the preassigned registration slot will be permanent.**
